

# Daydream - Valveuni

## Ooh, L start, M join NO ukes

**L + 1 uke** Who are you who came in a mid winter storm through the  
cold and darkness, so real and warm?

Who are you who searched for a comforting light in the  
endless mid winter night?

**M + 2 ukes** What was born an evening so long ago in a  
land of mountains and glistening snow?

Though I ask the answer was everywhere - it was  
just a dream we could share.

**All + 3 ukes** Our life was sunshine and joy for awhile, you  
changed my world with your words and your smile and if  
all must vanish, if it all goes away for  
ever my wonderful mem'ries will stay.

**L + 1 uke** Maybe you were all I was hoping to find?  
Did you wait for me? Was I in your mind?

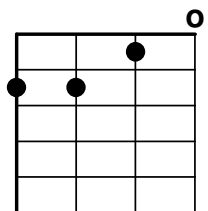

All our doubt and all hesitation was gone  
With the tender warmth we had won.

**M + 2 ukes** Like the stars. That shine somewhere high above  
Shines the mem'ry of what we cherished, my love.

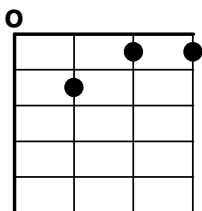

It is in my heart, it is everywhere  
But it's just a dream that we share.
