A certain maid I know is so afraid her beau

**Em**                    **Em**                    **Am**                    **B**  
Will never ask her, will she name the day

**M** **B**                    **B**                    **B**                    **B**  
He calls on her each night, and when she dims the light

**B**                    **B**                    **B**                    **Em**  
It's ten to one that you would hear her say

**L** **Em** **Em**                    **Am**                    **Em**  
Oh Joseph, Joseph, won't you make your mind up

**Em**                    **Em**                    **Em**                    **Am**  
It's time I knew just how I stand with you

**M** **Am**                    **B**                    **B**                    **B**  
My heart's no clock that I can stop and wind up

**B**                    **B**                    **B**                    **Em**  
Each time we make up after being through

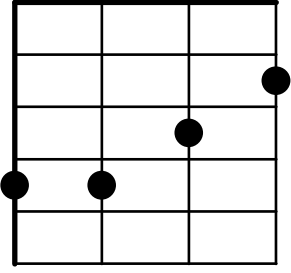

**L** **Em**                    **Em**                    **Em**                    **Em**  
So listen Joseph, Joseph time is fleeting

**Em**                    **E7**                    **Am**  
And here and there my hair is turning grey

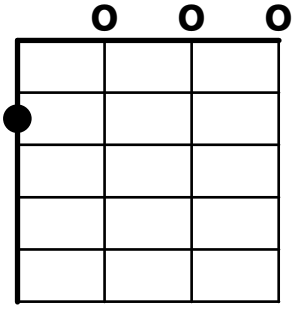

**M** **Am**                    **Am**                    **Am**                    **Em**                    **Em**  
Your mother has a fear, wedding bells she'll never hear

**L** **Em**                    **B7**                    **Em**  
Joseph, Joseph, won't you name the day

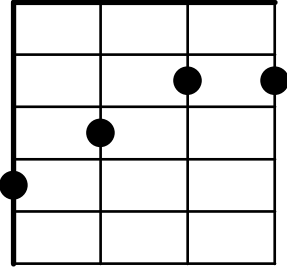

**Em**

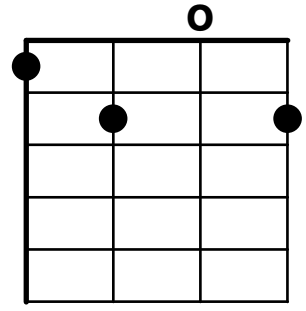

**Am**

**B**

**E7**

**B7**
